Dressler's "Cases and Materials" textbook is so widely used that it likely sets the parameters for most national survey courses on Criminal Law. Personally, I found that I needed supplemental materials (the author has published his own treatise) to fully appreciate the nuances and interplay between the cases.

International Criminal Law: Cases and Materials International Criminal Law provides a set of teaching materials furnishing students with a grounding in the transnational issues likely to arise in federal criminal cases, and also in the law produced as a consequence of international efforts to impose criminal responsibility on the perpetrators of human rights atrocities.

An array of carefully selected case report and academic article extracts combined with author commentary to provide a thorough and engaging assessment of criminal law provisions.

This title is a part of our CasebookPlus(tm) offering as ISBN 9781634601658. Learn more at CasebookPlus.com. This popular casebook, through the selection of classic and modern cases, provides an excellent tool for teaching students the common law foundations of the criminal law and modern statutory reform, including the Model Penal Code. Along the way, the casebook considers modern controversies (e.g., "shaming" punishment, capital punishment, broadening sexual assault law, self-defense by battered women, euthanasia, the role of culture in determining culpability), and creatively uses literature (e.g., examining insanity through Edgar Allen Poe's The-Tell Tale Heart) and even "brain teasers" to confront (as the Preface states) "the Big Questions . . . that philosophers, theologians, scientists, and poets, as well as lawyers, have grappled with for centuries." The Seventh Edition, as in the past, includes new cases, as well as updates in the notes that bring current issues of criminal law to the fore. New Power Points have been added to the casebook companion website. For more information and additional teaching materials, visit the companion site.

This text, the only criminal law casebook authored by two progressive female law professors of color, provides the reader with both critical race and critical feminist theory perspectives on criminal law while following a traditional format. All of the usual subject areas are covered, but the book is unique in highlighting the cultural context of substantive criminal law. The book seamlessly integrates issues of race, gender, class, and sexual orientation so the teacher who wishes to address such issues does not have to assign supplemental reading assignments in order to do so. The book is also very student-friendly, providing a brief doctrinal overview of the subject matter at the beginning of each chapter. The book does away with the tradition of long lists of notes and questions following the cases, a trademark feature of many older casebooks, putting this material in the Teachers Manual for the teacher to use at his or her discretion. The forthcoming third edition is fresh and innovative, referencing several ripped from the headlines controversies, including the shooting of Trayvon Martin by George Zimmerman and Florida's stand your ground law, the arrest of African American Harvard professor Henry Louis Gates, Jr. for disorderly conduct, the shooting of Larry King, a gender nonconforming teenager, by classmate Brandon McInerney and the gay panic defense, and the repeal of North Carolina's Racial Justice Act.

This title is a part of our CasebookPlus offering as ISBN 9781683284666. Learn more at CasebookPlus.com. The thirteenth edition continues the book's commitment to offering the most comprehensive, rigorous, and flexible materials on the American criminal process. With respect to the substantive criminal law, the new edition includes: Full case treatment of Johnson v. United States, illustrating the Supreme Court's current approach to the void-for-vagueness doctrine, and giving the clearest expression yet of the doctrine's constitutional foundations; Full case treatment of Elonis v. United States, 575 U.S. ___ (2015), illuminating the Supreme Court's current approach to imputing mental states when statutes are silent or unclear; Full case treatment of Rosemond v. United States, 572 U.S. ___ (2014) , illuminating the Supreme Court's current approach to the mens rea for complicity liability; Full case treatment of Hurst v. Florida, 136 S.Ct. 616 (2016), holding the Florida system of advisory jury verdicts in capital cases violates the Sixth Amendment; The substantive provisions of the American Law Institute's Project on Sexual and Related Offenses, Tentative Draft No. 2 (April 15, 2016), proposing, inter alia, a manifested "willingness" definition of consent and recognition of a felony offense for sexual penetration by an actor who knows, or consciously disregards a substantial risk, that the victim has not consented; Full case treatment of State v. J.W., Jr., 181 Wa.2d 757 (2014), holding the Washington practice of putting the burden of proof on the consent issue in rape cases on the defense violates due process; Extensive extracts from the Justice Department's memorandum explaining the decision not to bring federal civil rights charges against Officer Darren Wilson in the case involving the death of Michael Brown in Ferguson, Mo. With respect to criminal procedure, the new edition includes: Full case treatment of Riley v. California, 573 U.S. ___ (2014), summarizing search-incident-to-arrest doctrine and excluding cell phones from warrantless search incident to arrest, A thoroughly revised section on constitutional remedies in police practices cases, Illustrating the exceptions to the exclusionary rule with United States v. Rose, 613 Fed. Appx. 125 (3d Cir. 2015), a case giving a good illustration of the standing doctrine; and Utah v. Strieff, 2016 WL 3369419 (U.S. 2016), a case illustrating the Court's antipathy toward the exclusionary rule and analyzing the causation-based exceptions such as attenuation, inevitable discovery, and independent source; and The text of 42 U.S.C. 14141 and extensive excerpts from the consent decree regarding the New Orleans Police Department, entered between the Justice Department and the City of New Orleans in 2012.

This student-friendly text, the only criminal procedure casebook authored by three female law professors of color (who also bring diverse criminal justice system experiences as a former prosecutor, private criminal defense attorney and public defender), highlights social justice issues intertwined with the law of criminal procedure, integrating issues of race, class, gender, and sexual orientation where relevant.

The new edition is carefully edited to provide broad coverage of the issues in a manageably sized (900-page) casebook. The author's commentaries provide students with background material and analysis to supplement the cases and statutory materials. Criminal Procedure is such a detailed subject, with such an enormous amount of case law, that it is very easy to become lost in the minutiae. The Third Edition keeps the students' attention focused on the forest rather than the trees by introducing them to the "big picture" at the beginning, and then showing them how each detailed issue relates to the major themes.
