Level 2B of a six-level course in American English which stresses student comprehension of listening and reading input before they are asked to produce and practise new language. It includes a systematic approach to grammar, with new structures highlighted in dialogues, readings and exercises.

This textbook provides a comprehensive introduction for students and professionals who are

studying English for business or workplace communication and covers both spoken and written English. Based on up-to-date research in business communication and incorporating an international range of real-world authentic texts, this book deals with the realities of communication in business today. Key features of this book include: use of English in social media that reflects recent trends in business communication; coverage of the concept of communicative competence; analysis of email communication; introduction to informal English and English for socialisation as well as goodwill messages, such as thank you or appreciation messages, which are a part of everyday interaction in the workplace; examination of persuasive messages and ways to understand such messages; an e-resources website that includes authentic examples of different workplace genres and a reference section covering relevant research studies and weblinks for readers to better understand the topics covered in each chapter. This book goes beyond the traditional coverage of business English to provide a broad and practical textbook for those studying English in a workplace setting.

This textbook introduces current thinking on English as a global language and explores its role in intercultural and transcultural communication. It covers how English functions as a lingua franca in multilingual scenarios alongside other languages in a wide variety of global settings, and the fluid and dynamic links between English, other languages, and cultural identities and references. The implications for English language teaching (ELT), academia, business, and digital communication are explored. Contemporary research and theory are presented in an accessible manner, illustrated with examples from current research, and supported with discussions and tasks to enable students to relate these ideas to their own experiences, needs, and interests. Each chapter contains activities to help students orientate towards the topic, reflect on personal experiences and opinions, and check their understanding. Additionally, a detailed glossary of key terminology in Global Englishes and Intercultural Communication is provided. Exploring in depth the links between Global Englishes, Intercultural Communication research, and Transcultural Communication research, this is key reading for all advanced students and researchers in Global or World Englishes, English as a Lingua Franca (ELF), and Intercultural Communication.

It attempts to develop their proficiency in the four language skills and knowledge of grammar and vocabulary. This book teaches students how to communicate accurately, appropriately and fluently in professional and social situations.
