One of the most perplexing aspects of research today is what to do when there's too much information on a topic. The key, says Leslie Stebbins, is to know how to find the most promising information, evaluate it, and use it effectively. Individual chapters provide a step-by-step introduction to research and critical evaluation and specific types of information resources, as well as guidance on such skills as note-taking and referencing. Students and librarians alike will benefit from these suggestions, strategies and straightforward examples for developing good filtering instincts and management of search results.

the world. The MLA Handbook for Writers of Research Papers (7th Edition) is an accepted format used by many academic and nonacademic institutions and publications. However, this highly regarded manual is not specifically geared toward scholarly academic writing ... especially term papers. The authors of this book draw information from the manual that is specific to academic writing and expand upon it using document set-up instructions and a sample paper. This book clarifies many detailed specifications of MLA style. Frequently used aspects of MLA style, citation, and referencing are addressed in a simple format that allows researchers to focus on content instead of mechanics and style.

Students face challenges assessing, responding to, and producing information in today's fast-paced, complex digital landscape. This guide helps students understand why digital literacy is a critically important skill: their education, future careers, and participation in democratic processes rely on it. Hands-on, structured activities give students strategies for evaluating the credibility of sources, detecting fake news, understanding bias, and more. Readings and writing prompts support specific concepts, including how to craft a research question and effectively conduct searches. An appendix contains three sample lesson plans.

What makes a good research topic in a literature class? What does your professor mean by "peer-reviewed" sources? What should you do if you can't find enough material? This approachable guide walks students through the process of research in literary studies, providing them with tools for responding successfully to course assignments. Written by two experienced librarians, the guide introduces the resources available through college and university libraries and explains how to access the ones a student needs. It focuses on research in literature, identifying relevant databases and research guides and explaining different types of sources and the role each plays in researching and writing about a literary text. But it contains helpful information for any student researcher, describing strategies for searching the Web to find the most useful material and offering guidance on organizing research and documenting sources with MLA style.
