A good way to practice these exotic guitar scales is playing over a drone. In this section, you'll learn 6 exercises over a meditative drone with an E5 chord voicing. There are only two notes in the drone (e and b) so you can use different scales and chord types more freely.

Gain new melodic tools and insight to develop your solos and enhance your creativity.

Fluid Pentatonics for Guitar: 84 Melodic Studies for Rock Guitar is a comprehensive manual for developing blistering pentatonic

Read Free Exotic Pentatonic Soloing For Guitar Creative Scales And Licks For The

motion that moves freely over the entire fretboard, using position-shifting slides, hammer-ons, and pull-offs for speed and fluidity. Emphasis is on overcoming the restrictive nature of traditional pentatonic "box" scale fingerings by developing pathways that continually shift between and connect the five pentatonic boxes. Complete whole-neck control is developed through an extensive series of repeating melodic exercises and etudes. Section One presents 35 sequential whole-neck studies, each of which spans the range of twelve frets, thus unlocking virtually every possible position shift. Section Two develops complete non-shifting control through a series of 15 interesting and useful sequential patterns, applied to each of the five pentatonic "boxes." Section Three presents 10 whole-neck/position-shifting studies that are non-sequential in design, in order to develop unpredictable melodic flow. Then, in Sections Four and Five, two vital extensions/variations of the pentatonic scale are fully explored; the Hexatonic and Dominant Pentatonic scales. The result is a complete matrix of pentatonic moves and connections that allow the guitarist to float freely across the entire fretboard without being locked into any single particular pentatonic "box." The resulting sound is definitely NOT bluesy (very little string bending), but closer to a modern jazz-rock fusion style; fluid and unpredictable. Great

for all guitarists in rock, jazz, fusion, blues, country, and pop styles who want to unlock complete whole-neck freedom and develop a fast, modern pentatonic sound. CD included. Presented in standard notation and ta

Set your guitar playing apart by learning the best Exotic Scales and Arpeggios from around the world! In this book you'll find easy to use diagrams which will help you take your guitar playing to a new level. Written in an easy to understand format, any guitarist will be able to start using the ideas in this book to improve their guitar playing instantly!

Take The Minor Pentatonic Scale Scale Beyond Blues & Classic Rock... The journey of virtually every guitar player begins with the pentatonic scale. No other scale has been used more to further the connection between the guitar and modern music. However, pentatonic shapes fall so easily under the fingers the same thing which helped us progress can end up holding us back. In Mastering Pentatonics, boring pentatonic clichés are blown out of the water with a wealth of fresh, creative ideas from a group of expert guitar players. Discover new pentatonic patterns, licks, and sequences Learn multiple ways to adapt pentatonic scales to play over any chord Explore hybrid and exotic pentatonic scale forms to transform your lick vocabulary You will

Guitar Scales Handbook is a 130-Page Book and Video Course for learning scales, music theory, and fretboard theory. The book is organized in a 100-lesson format that takes you step by step through scales, the notes on the guitar neck, intervals, and music theory. Each lesson builds on the next and the book is designed for beginners through advanced /

Read Free Exotic Pentatonic Soloing For Guitar Creative Scales And Licks For The

virtuoso guitarists. The following scales (in 1, 2, and 3 Octaves) are covered in the book: Major Scale and Modes Minor Scales The Blues Scales Pentatonic Minor and Modes Chromatic Scale Pentatonic Major and Modes Harmonic Minor and Modes Whole-Tone Scale Octatonic Scale These are the Play-Along Jam Track Videos: Rockabilly Rock Blues Jam Progressive Rock Pop Ballad Funk

This exhaustive study of scales is a must-own for any improvising guitarist. Published in collaboration with one of America's leading guitar schools, it provides the practical information you need to use each scale in a solo. With each scale, you get an explanation of the scale and its uses, a fingering on one string, six-string fingerings in all keys in a cycle of fourths, three-note per string fingerings, and a chord vamp to practice the scale over. Give your playing a unique edge with exotic scales from all over the world. This easy-to-use book even includes a section on how to practice scales. The Ultimate Guitar Scale Bible should be part of every guitarist's library.

3NPS (three-note-per-string) scales, as used by legions of guitarists but popularized mainly by Joe Satriani, are one of the most efficient ways to navigate the fretboard and get your scales down IF you follow the guidelines in this book. As the name suggests, a 3NPS scale is any scale that

Read Free Exotic Pentatonic Soloing For Guitar Creative Scales And Licks For The

contains three notes on each string, and as you'll see in this eBook, this makes for a very consistent way to map out scales on the guitar fretboard. What we've done here is revamped the 3NPS scale system and turned it into an incredibly effective means to learn a wide variety of scales all over the fretboard by streamlining the number of patterns, as well as the picking system. This is not a scale theory book, and contains no pentatonic scales. This is a quick and dirty (and very effective) method for learning 3NPS scales all over the fretboard; something to work on in the woodshed. It will improve your picking technique and speed. It does not require a great amount of thinking as you only need to learn two picking patterns, which is really one in two directions, and only three scale patterns instead of the usual seven per scale.

Do you love sitting at home playing guitar, but find yourself playing the same old things over and over without making much progress? When other musicians invite you to jam, do you worry that you won't be able to keep up? Are you a veteran guitarist who has played for years, but you're embarrassed to admit you have no idea what you're doing? If you want to take your guitar playing to the next level, compose songs like you hear on the radio, and improvise your own music, then you need Fretboard Theory. Fretboard Theory by Desi Serna teaches music theory for guitar

Read Free Exotic Pentatonic Soloing For Guitar Creative Scales And Licks For The

including scales, chords, progressions, modes and more. The hands-on approach to theory shows you how music "works" on the guitar fretboard by visualizing shapes and patterns and how they connect to make music. Content includes: * Learn pentatonic and major scale patterns as used to play melodies, riffs, solos, and bass lines * Move beyond basic chords and common barre chords by playing the types of chord inversions and chord voicings used by music's most famous players * Chart guitar chord progressions and play by numbers like the pros * Identify correct scales to play over chords and progressions so you can improvise at will * Create new sounds with music modes and get to know Ionian, Dorian, Phrygian, Lydian, Mixolydian, Aeolian and Locrian * Add variety to your playing by using intervals such as thirds, fourths, and sixths * Increase your chord vocabulary by using added chord tones and extensions to play chord types such as major 7, minor 7, sus2, sus4, add9, and more * Learn how all the different aspects of music fit together to make a great song * See how theory relates to popular styles of music and familiar songs

Fretboard Theory will have you mastering music like a pro easier and faster than you ever thought possible. Plus, it's the ONLY GUITAR THEORY RESOURCE in the world that includes important details to hundreds of popular songs. You learn how to play in the style of pop, rock, acoustic, blues, and more! This guitar instruction is perfect

Read Free Exotic Pentatonic Soloing For Guitar Creative Scales And Licks For The

whether you want to jam, compose or just understand the music you play better. The material is suitable for both acoustic and electric guitar, plus it features many references to bass. Level: Recommended for intermediate level players on up. Video Fretboard Theory is also available as a 21-hour video series that is sold separately on the author's GuitarMusicTheory.com website. Visit the website and sign up for email lessons to sample the footage. Fretboard Theory Volume II When you're ready to take your playing to the next level, get the second book in the series, Fretboard Theory Volume II, which is also available as a 12-hour video series.

(Instructional). This book is a complete compilation of scales, modes, exotic scales, and theory. It covers the most common and exotic scales, theory on how they're constructed and practical applications. No prior music theory is necessary since every section is broken down and explained very clearly.

If you're looking for a comprehensive, logically laid-out, and quick to use reference book about chord shapes for guitar - then your search ends here. "The Chord Book: Movable Chord Shapes for Guitar" is filled with one thing, and one thing only: practical and movable chord voicings. Instead of wasting time with YouTube and other online
