In order to produce a good philosophy paper, it is first necessary to think very carefully and clearly about your topic. Unfortunately, your reader (likely your marker or instructor) has no access to those thoughts except by way of what actually ends up on the page.

Philosophical Writing: An Introduction, 4th Edition, features numerous updates and revisions to A. P. Martinich's best-selling text that instructs beginning philosophy students on how to craft a well-written philosophical essay. Features an entirely new chapter on how to read a philosophical essay, new sections on quantification and modality, and rhetoric in philosophical writing, as well as more updated essay examples Includes many new essay examples and an accompanying website with further topics and examples Traces the evolution of a good philosophical essay from draft stage to completion Emphasizes what a student should do in crafting an essay, rather than on what not to do Written with clarity and humor by a leading philosopher

Writing Philosophy: A Student's Guide to Reading and Writing Philosophy Essays, Second Edition, is a concise, self-guided manual that covers how to read philosophy and the basics of argumentative essay writing. It encourages students to master fundamental skills quickly--with minimal instructor input--and provides step-by-step instructions for each phase of the writing process, from formulating a thesis, to creating an outline, to writing a final draft, supplementing this tutorial approach with model essays, outlines, introductions, and conclusions. Writing Philosophy is just \$5 when packaged with any Oxford University Press Philosophy text. Contact your Oxford representative for details and package ISBNs.

This is the leading, full-scale comprehensive dictionary of philosophical terms and thinkers to appear in English in more than half a century. Written by a team of more than 550 experts and now widely translated, it contains approximately 5,000 entries ranging from short definitions to longer articles. It is designed to facilitate the understanding of philosophy at all levels and in all fields. Key features of this third edition: • 500 new entries covering Eastern as well as Western philosophy, and covering individual countries such as China, France, Germany, Italy, and Spain • Increased coverage of such growing fields as ethics and philosophy of mind • More than 100 new intellectual portraits of leading contemporary thinkers • Wider coverage of Continental philosophy • Dozens of new technical concepts in cognitive science and other areas • Enhanced cross-referencing to add context and increase understanding • Expansions in both text and index to facilitate research and browsing

Discover the world's greatest thinkers and their groundbreaking notions! Too often, textbooks turn the noteworthy theories, principles, and figures of philosophy into tedious discourse that even Plato would reject. Philosophy 101 cuts out the boring details and exhausting philosophical methodology, and instead, gives you a lesson in philosophy that keeps you engaged as you explore the fascinating history of human thought and inquisition. From Aristotle and Heidegger to free will and metaphysics, Philosophy 101 is packed with hundreds of entertaining philosophical tidbits, illustrations, and thought puzzles that you won't be able to find anywhere else. So whether you're looking to unravel the mysteries of existentialism, or just want to find out what made Voltaire tick, Philosophy 101 has all the answers--even the ones you didn't know you were looking for.

What existed before the Universe was created? Where does self-worth come from? Do the ends always justify the means? The Philosophy Book answers the most profound questions we all have. It is your visual justify to the fundamental nature of existence, society, and how we think. Discover what it means to be free, whether science can predict the future, or how language shapes our thoughts. Learn about the world's greatest philosophers, from Plato and Confucius to modern thinkers such as Chomsky and Derrida and follow charts and timelines that graphically show the progression of ideas and logic. Written in plain English, with concise explanations of branches of philosophy such as metaphysics and ethics, it untangles complicated theories and makes sense of abstract concepts. It is an ideal reference whether you're a student or a general reader, with simple explanations of big ideas, including the four noble truths, the soul, class struggle, moral purpose, and good and evil. If you're curious about the deeper questions in life, The Philosophy Book is both an invaluable reference and illuminating read.

Are children natural philosophers? They are curious about questions such as the meaning and purpose of being alive and whether we can know anything at all. Pre-college philosophy takes as a starting point young people's inherent interest in large questions about the human condition. Philosophy and Education: Introducing Philosophy to Young People seeks to illuminate the ways in which philosophy can strengthen and deepen pre-college education. The book examines various issues involved in teaching philosophy to young people at different grade levels, including assessing what teachers need in order to teach philosophy and describing several models for introducing philosophy into schools. Ways to explore specific branches of philosophy – ethics, epistemology, metaphysics, aesthetics, and logic – through literature, thought experiments, and games and activities, as well as traditional philosophy texts, are described. The book's final section considers student assessment and program evaluation, and analyzes the contributions pre-college philosophy can make to education in general. Teachers and educators – and parents – all want young people to grow up with the skills they need to pursue their own goals and become productive and successful adults. Thinking independently and reasoning clearly are central to these objectives. Philosophy helps students develop some of the analytic skills they need to engage in thoughtful decision-making throughout their lives, and the richness of the questions involved can help young people maintain their awareness of the world as marvelous and mysterious.

"Talk doesn't cook rice." —Chinese Proverb According to Socrates, knowledge is "food for the soul." That's all well and good for the Socratic but, according to Maslow, food for the stomach is a far more pressing matter. But why can't you have your talk, and cook rice too? With The Philosopher's Table, Marietta McCarty shows you that you can. In this book, you will find all of the necessary ingredients to start a Philosophy Dinner Club, taking a monthly tour around the world with friends to sample hors d'oeuvres of succulent wisdom and fill your plate with food from each philosopher's home country. With recipes, theories, and insights both old and new—all peppered with McCarty's charming and informative prose—you and your friends will.—Enjoy fresh homemade lamb meatballs and tzatziki, and the simple pleasures of life in Epicurus's ancient Greek garden. —Practice nonviolence (in life and at the dinner table) while sharing tofu curry with Burma's Aung San Suu Kyi. —Learn the fundamentals of rational decision-making with a mouthful of bratwurst from Germany's Immanuel Kant —In the spirit of accepting change, ditch the familiar take-out containers and dine on homemade shrimp dumplings with China's Lao Tzu. —And so much more! Complete with McCarty's recommendations for ethnic music from each region to enjoy during your gatherings and discussion questions to prompt debate, The Philosopher's Table contains everything you need to leave your host's home brimming with both nutritional and mental satisfaction.

Discover an all-in-one guide to writing with Seech's WRITING PHILOSOPHY PAPERS, 5e. Written specifically for philosophy students, this unique book leads your students through every aspect of writing philosophy papers and serves as an ideal supplement for any philosophy class that includes writing assignments. Seech guides students through each step of creating and organizing a strong philosophy essay—from the conception of a thesis and basic mechanics of writing through conducting effective research and accurately citing sources. Your students learn the skills for formulating articulate, intelligent arguments. Sample essays in the back of the book provide valuable examples for students to reference. This edition introduces students to the organization, style, and reasoning behind the primary types of philosophy papers, including compare-and-contrast, research, and summary and explanatory papers. A new chapter on Internet research (Chapter 7) discusses source accountability and use of the Internet encyclopedia Wikipedia. New discussions on plagiarism in a digital age and word processing today further prepare students for writing success. Widely used and highly praised in prior editions, WRITING PHILOSOPHY PAPERS, 5e, serves as a valuable, ongoing reference for students in any philosophy class. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

From the author of How Proust Can Change Your Life, a delightful, truly consoling work that proves that philosophy can be a supreme source of help for our most painful everyday problems. Perhaps only Alain de Botton could uncover practical wisdom in the writings of some of the greatest thinkers of all time. But uncover he does, and the result is an unexpected book of both solace and humor. Dividing his work into six sections -- each highlighting a different psychic ailment and the appropriate philosopher -- de Botton offers consolation for unpopularity from Socrates, for not having enough money from Epicurus, for frustration from Seneca, for inadequacy from Montaigne, and for a broken heart from Schopenhauer (the darkest of thinkers and yet, paradoxically, the most cheering). Consolation for envy -- and, of course, the final word on consolation -- comes from Nietzsche: "Not everything which makes us feel better is good for us." This wonderfully engaging book will, however, make us feel better in a good way, with equal measures of wit and wisdom.

Philosophy as it is frequently taught in classrooms bears little relation to the impassioned and immensely practical search for self-knowledge conducted by not only its ancient avatars but also by men and woman who seek after truth today. In The Heart of the Philosophy, Jacob Needleman provides a "user's guide" for those who would take philosophy seriously enough to understand its life-transforming qualities.
