"A one-semester, comprehensive algebra course for college students."--

For courses in Beginning & Intermediate Algebra. Understanding and Applying Mathematical Concepts The goal of the Bittinger Concepts and Applications Series is to help today's student learn and retain mathematical concepts. This proven program prepares students for the transition from skills-oriented elementary algebra courses to more concept-oriented college-level mathematics courses. This requires the development of critical-thinking skills: to reason mathematically, to communicate mathematically, and to identify and solve mathematical problems. The new editions support students with a tightly integrated MyMathLab course; a strong focus on problem-solving, applications, and concepts, and the robust MyMathGuide workbook and objective-based video program. In addition, new material-developed as a result of the authors' experience in the classroom, as well as from insights from faculty and students-includes more systematic review and preparation for practice, as well as stronger focus on real-world applications. Also Available with MyMathLab (tm) . MyMathLab is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them absorb course material and understand difficult concepts. Note: You are purchasing a standalone product; MyLab(tm) & Mastering(tm) does not come packaged with this content. This print textbook is available for students to rent for their classes. The Pearson print rental program provides students with affordable access to learning materials, so they come to class ready to succeed. For courses in Intermediate Algebra. Gets them engaged. Keeps them engaged. Bob Blitzer's Developmental Algebra Series shows developmental students at all levels how math applies to their daily lives and culture. Blitzer's use of realistic, interesting applications instantly piques students' curiosity about mathematical concepts in the world around them. These applications are apparent throughout the entire program - from his student-friendly examples, unique writing style, and thought-provoking features to the digital resources in the MyLab Math course. In this revision Blitzer updates his hallmark applications, pulling from topics that are relevant to college students - often from pop culture, the news, and everyday life - to ensure that they will actually use their learning resources to achieve success. Also available with MyLab Math By combining trusted author content with digital tools and a flexible platform, MyLab Math personalizes the learning experience and improves results for each student. 0136553435 / 9780136553434 INTERMEDIATE ALGEBRA FOR COLLEGE STUDENTS [RENTAL EDITION], 8/e

The Bittinger Graphs and Models Series helps readers learn algebra by making connections between mathematical concepts and their real-world applications. Abundant applications, many of which use real data, offer students a context for learning the math. The authors use a variety of tools and techniques—including graphing calculators, multiple approaches to problem solving, and interactive features—to engage and motivate all types of learners.
