required documents The application process requires that all documents be submitted to the JET Program Office via the online portal. Applications which are missing documents at the time of the deadline are not considered, so it is important to provide all necessary materials.

*How to Apply - JET Program USA*

All application documents must be received at the JET Program Office in Washington, D.C. no later than the application deadline. Exceptions unfortunately cannot be made for applicants living abroad. All interviews are conducted in-person at designated interview locations in the U.S. without exception.

Coming after the successful first volume, the second volume covers the important topics of NASA relations with the military, foreign space agencies, and NASA-industry-university relations. Organized in a similar format as volume I, this book should be very useful to students of space exploration.

Since 1987, the Japan Exchange and Teaching (JET) Program has recruited thousands of young college graduates from more than sixty countries, including the United States, to work in Japan for up to five years. Now, thirty years after the program's founding, there are more than 60,000 JET Program alumni worldwide, more than half of them hailing from the United States. The JET Program and the US-Japan Relationship: Goodwill Goldmine argues that JET functions as much more than an opportunity for young people to spend a year or more teaching in Japanese schools or working in municipal offices across the Japanese archipelago. This study examines the JET program as a form of public diplomacy and soft power. Through original survey data and extensive interviews with alumni, the author provides a quantitative analysis of the program's effects and argues that it has been highly useful in shaping interactions between Japan and the United States.

## Download Ebook Jet Program Required Documents

"Japan's official efforts at internationalization have been painful to witness. . . . The government's JET program is easily the most ambitious and its history and on-the-ground problems offer significant insights into Japan's struggle to open up to the outside. David McConnell's book provides a most interesting analysis of why this process has been so complex and difficult. It tells us much about Japanese society and education at this critical point in time."—Thomas P. Rohlen, author of *For Harmony and Strength*

"In this superb and insightful book, David McConnell explores perhaps the greatest (certainly the biggest) education program in humankind's history, offering patient, balanced analysis of its workings, problems, and accomplishments. McConnell's confucian equanimity and multifaceted perspectives lend the book a depth seldom found in contemporary writing on Japan."—Robert Juppe, First ALT Advisor for the JET Program

"This is a very astute, thorough, and personal account of the JET program as a case study of how a program can both change a system and provoke defenses against any change. With his fine ethnographic and analytic material, McConnell reveals the faultlines of "internationalization" in Japan. This is a great contribution to the study of organizations, marginality, and shifts in global and national identity."—Merry White, author of *Japanese Families: It Takes a Nation*
