David Kingman has a look at the evidence surrounding the “Generation Sensible” narrative about young people. Today’s generation of teenagers and young adults in the UK has frequently been labelled with the moniker “Generation Sensible” by the media in recent years. A recent BBC news article provided a large amount of evidence in support of this trope by expounding on the statistical evidence that shows today’s teenagers are less likely to drink, smoke, do drugs, have teenage ...

OK, the original poster posed the question: What is really sensible in terms of PC security? Along those lines I will answer: HUMAN INPUT IS #1 Do not open unknown emails/attachments, hell even 'known' ones could have been spoofed, lol. Do not auto click on anything/anywhere. Do not have ANYTHING [for me] set to auto

I mean the last line, “First-time mothers really complicate it ... This is much easier than preparing separate meals”, is a little on the bald side, and of course wasn’t the case for me with my first child \*puffs out chest\*, but apart from that this article from the Sydney Morning Herald is a really good one and I do like this woman’s style.
